Basic information

State : Chhattisgarh Total Population : 2,08,33,803 Total number of cities developing CSPs : Five							
City Name	Population	Current status of sanitation				Authorities/ Agencies Involved	Current MoUD Rating
		Open defecation (% of Total Household)	% of Liquid Waste treated through sewerage system	% of Liquid Waste treated through on site systems	% of Solid Waste treated		
Durg	2,32,517	44%	<ul style="list-style-type: none"> In the Municipality area of these towns, there is no system of Liquid Waste Treatment through Sewerage System. The liquid waste on the household level is only collected through Individual Septic Tanks. As the tank gets filled up, the waste is dumped outside. Presently there is no Solid Waste Treatment system in the municipalities. Only the waste is collected and dumped in the trenching ground without any treatment. 			Durg Municipal Corporation, Durg	79
Bhilai	5,56,366	39%			Bhilai Municipal Corporation, Bhilai	188	
Rajnandgaon	1,43,770	56%			Rajnandgaon M Corp., Rajnandgaon	163	
Bilaspur	2,95,235	34%			Bilaspur Municipal Corporation, Bilaspur	233	
Korba	3,15,690	49%			Korba Municipal Corporation, Korba	203

Steps initiated so far.....

SL. NO	STEPS	STATUS
1	Are any workshops planned with stakeholders informing them of CSP?	Yes. Inception workshop was held on 25th May, 2010 . Subsequently, 5 CSTF workshops have also been organized in this regard.
2	Training/ orientation completed?	ULB officials have been orientated.
3	Is the City Sanitation Task Force formed?	For all 5 cities, the CSTF have already been formed. <u>Durg</u> : 5th July 2010 <u>Bilaspur</u> : 8th July 2010 <u>Rajnandgaon</u> : 10th July 2010 <u>Bhilai</u> : 13th July 2010 <u>Korba</u> : 14th July 2010
4	Data Collection?	In progress
5	Awareness campaigns for various stakeholders?	Design of campaigns in progress
6	Agency executor for CSP hired?	RCUES, Lucknow is preparing the CSPs.
7	Proposed timelines to complete the development of CSPs for all cities?	CSP Preparation completion latest by December, 2010

Strategy/ Goal of CSP.....

- **Vision for CSP:** To ensure a fully sanitized city
- **Integrate the Existing & Proposed Projects with CSP:**
 - The existing and proposed projects shall be studied and considering the feasibility and priority, these projects shall be integrated within the CSP.
- **Plans for stakeholder participation- NGOs, Media, Citizens etc:**

We plan to integrate NGOs, Media and Citizens as under

 - Launching Sanitation Campaign
 - Generating awareness amongst the citizen & stakeholder
 - Preparing the City Sanitation Plan after stakeholder consultation
 - Issue briefing to the press/ media & state govt. about progress
 - Providing overall guidance to the Implementation Agency
- **Utilization of the funds provided to develop CSP:**
 - Projects are to be identified on priority basis by considering the present gap & future demand and consultation with CSTF. Considering the priority of projects, the funds will be utilized for the projects for various components.
- **Short term and long term goals:**
 - The short term goals would be to provide immediate relief by providing community toilets and the long term goals would be to provide the entire infrastructure so that complete sanitation is achieved.
- **Cost recovery?**
 - Cost recovery can be achieved by BOT by introducing Private organization (PPP model), Advertisement revenue and Implementing Pay & Use concept.

Challenges/ capacity needs of ULB...

SL. NO		
1	Is their capacity within ULB to develop CSP?	Limited capacity is available in the ULB to develop CSP . That is the reason why they have appointed RCUES, Lucknow.
2	Will the CSP be developed in house or through external agency?	The CSP will be developed by RCUES, Lucknow.
3	Are any trainings required to develop CSP?	Could be considered.
4	Are there any best practices in urban sanitation that you can replicate?	Yes
5	Specific challenges faced	The data management system in the ULBs are very poor and therefore, whenever anybody asks for information, they are not in a position to provide the same quickly and accurately.
6	Support required from MoUD and others	To develop data management system.

Let's make our Cities Totally Sanitized!

Thank You
