No.N-11026/2/2008/BSUP/JNNURM –Vol. XVI Government of India Ministry of Housing and Urban Poverty Alleviation

> Room No. 201, G Wing New Delhi, dated 27th December, 2008

OFFICE MEMORANDUM

The undersigned is directed to enclose herewith a copy of the minutes of the 44th meeting of the Central Sanctioning and Monitoring Committee of Ministry of Housing and Urban Poverty Alleviation held on 10th December, 2008 under the Chairmanship of Secretary (HUPA) to consider and sanction projects under Sub-Mission on Basic Services to the Urban Poor (BSUP) under Jawaharlal Nehru National Urban Renewal Mission (JNNURM).

- 2. The appraisal agencies (i.e. HUDCO, BMTPC) are requested to convey the decisions of the Central Sanctioning & Monitoring Committee to all the State implementing agencies/nodal agencies for BSUP and HISDP to take appropriate follow up action as per the minutes of the meeting.
- 3. A copy of the minutes is forwarded to the Secretaries in-charge of BSUP and IHSDP in the States/UTs with a request to take further follow up action.

(M.∮ayachandran) Deputy Director (BSUP) Telephone 011-2306 1519

MINUTES OF THE 44TH MEETING OF THE CENTRAL SANCTIONING AND MONITORING COMMITTEE (CSMC) OF THE SUB-MISSION ON BASIC SERVICES TO THE URBAN POOR (BSUP) UNDER JAWAHARLAL NEHRU NATIONAL URBAN RENEWAL MISSION (JNNURM)

Nirman Bhawan, New Delhi, 10th December, 2008

The 44th meeting of the Central Sanctioning and Monitoring Committee (CMSC) of the Sub-Mission on Basic Services to the Urban Poor (BSUP) under Jawaharlal Nehru National Urban Renewal Mission (JNNURM) was held under the Chairpersonship of Secretary, Ministry of Housing and Urban Poverty Alleviation in New Delhi on 10th December, 2008. The list of participants is at **Annexure** – **I**.

- 2.1 Joint Secretary & Mission Director (JNNURM) welcomed Chairperson and Members of CSMC. Emphasizing the importance and the use of web-enabled JNNURM Online Tracking System, he requested all the States to make full use of the e-tool. He said that the system, developed by the Centre for Good Governance (CGG), Hyderabad has already been used by the States of Andhra Pradesh and Gujarat who have found the same useful and in order. He requested other States/UT's to contact the JNNURM Mission Directorate of the Ministry in case there is any difficulty or problem in its use. The CGG, Hyderabad has already conducted 3 training programmes on the use of the Online Tracking System, which was co-ordinated by the National Project Coordinator of the GOI-UNDP Project on National Strategy for Urban Poor.
- 2.2. Joint Secretary & Mission Director (JNNURM) drew special attention of the States/ULBs towards completion of the sanctioned projects and requested them to come up with proposals for release of 2nd and subsequent installments of ACA. He also requested them to advance their demand for approval of projects/release of ACA scheduled for the month of February/March, 2008. Pre-ponement of such demand would lead to release of fund in the current financial year itself. In case State Governments/ULBs are able to release their 2nd/3rd/4th installments at one go, given the speed of project execution, SLNAs could send proposals for multiple installments at a time.
 - 2.3. Joint Secretary & Mission Director (JNNURM) referred to the huge balance of ACA for the States of Maharashtra and West Bengal under BSUP. He impressed upon the States to take immediate action for

coming up with sufficient number of BSUP projects. If more handholding workshops were required to prepare projects, the Ministry would extend necessary help to the States. He also drew attention of all the States/UTs towards instituting Third Party Inspection and Monitoring (TPIM) mechanism. The States/UTs may select any of the agencies empanelled by the Ministry. Alternatively, the States/UTs may select any other agencies through a transparent method. He requested the States/UTs to also come up with proposals for obtaining Central fund for setting up Community Development Networks (CDN). Joint Secretary & Mission Director (JNNURM) said that as part of the efforts to enhance the capacity of the States/ULBs/parastatal agencies, the Ministry had decided to reimburse cost of in-house preparation of Detailed Project Reports (DPRs). The States/UTs should come up with necessary proposals for reimbursement of such costs with all the checklists filled up. In the case of proposals for reimbursement of cost of DPRs prepared by consultants, such proposals will be scrutinized by the appraisal agency Thereafter the same will be put up before the Central Sanctioning and Monitoring Committee for approval.

- 2.4 Joint Secretary & Mission Director (JNNURM) said that some of the important points emphasized by the Chairperson of CSMC in the earlier meetings for implementation by the States/ULBs have been compiled (Annexure-II). He requested the States/ULBs to follow the same.
- 3.1. In her opening remarks, the Chairperson, CSMC and Secretary (HUPA) requested the lagging State Governments/ULBs to ensure that necessary proposals were prepared for utilizing the balance ACA separately for BSUP and IHSDP. While some of the States have exhausted their allocation, many States are yet to submit adequate number of proposals.
- 3.2. The Chairperson, CSMC reiterated the need to strengthen Urban Local Bodies to ensure that the 74th Amendment Act is implemented in letter and spirit. She particularly emphasised two pro-poor reforms, i.e. (i) internal earmarking within urban local body budgets for basic services to the urban poor including security of tenure at affordable prices, improved housing, water supply, sanitation and ensuring delivery of other already existing universal services of the government for education, health and social security to be implemented in a time-bound manner. Revitalising the functioning of ULBs would help them discharge the functions devolved by State Governments effectively, leading to better urban local governance and

pro-poor service delivery. Without implementation of local government reforms, JNNURM would remain a mere infrastructure upgradation programme, and none of the policy changes it hoped to drive to develop vibrant and inclusive cities would materialise.

- The Chairperson, CSMC and Secretary (HUPA) reiterated the need to ensure timely completion of the projects already approved with utmost quality. States/ULBs should draw up a plan of action for each project and inform the Ministry the likely date of seeking next installment and the time required for completion. A detailed plan showing the dates of sanction of each project by CSMC/CSC, release of Central Share by Ministry of Finance/Home Affairs, release of Central and State Shares by State l'inance Department to the State Level Nodal Agency, release of funds to the ULB/Implementing Agency, floating of tender, issues of work order, milestones of progress targeted such as foundation, lintel, roof, completion in all respects, occupation, etc., should be drawn up to enable the Ministry to understand the progress on ground. The central level monitoring agency, namely BMTPC, should gather all details during State/city visits and bring forth issues in implementation, if any, to the notice of the Ministry. State/UT Governments/Nodal Agencies/ULBs may also bring to the notice of the Ministry issues requiring intervention promptly. Secretary (HUPA) desired that States/ULBs, which are planning to avail of second or subsequent installment in the month of March, 2009 may try to advance it to January by taking suitable measures to ensure that projects do not get affected by any likely cut in the budget in the last quarter of the financial year. States may appreciate that delay in release of funds would lead to delay in the completion of projects and undue burden on the poor beneficiaries who take loans to meet their own contribution. Secretary (HUPA) further informed that in view of the need to strengthen monitoring of BSUP and IHSDP, HUDCO and its regional offices will be involved by BMTPC, which is receiving support for monitoring-related works from the Ministry. She desired that five teams comprising officers from BMTPC/HUDCO/Ministry be formed and they may visit projects in different zones and send reports.
 - 3.4. Chairperson, CSMC and Secretary (HUPA) made it clear that the Central assistance for JNNURM projects has to be taken as an incentive for attracting State/ULB funding and directing State/ULB attention to the magnitude of the problems faced by cities and towns. There is a special need to focus on the problems of the urban poor and implement time-bound action plans for the provision of basic amenities and services under the 7-Point Charter. Central funding alone would not be sufficient to meet the challenges of urbanization and urban poverty. The task of

augmenting the pace of implementation of reforms along with the achievement of targets under the investment programmes taken up under JNNURM is of paramount importance. Ground level visibility of JNNURM is also critical. Further, special attention needs to be paid to achieving the Mid-Term Targets communicated earlier to State Chief Secretaries [vide DO. Letter No.N-11027/42/2007-BSUP/JNNURM dated 8th August, 2007 from Secretary (HUPA)]

4. For the Meeting of the CSMC, 3 new BSUP projects from Uttar Pradesh and proposals for releasing 2nd installments (2 projects in Tamil Nadu and 1 project in Λndhra Pradesh) were put up in the Λgenda, brief details of which are at **Annexure-III**.

New Projects

.

*

Uttar Pradesh

- 5.1. Representative of the State Government of Uttar Pradesh (Director, SUDA) made a presentation on three BSUP project proposals for Varanasi. The Committee took note of the following:-
 - The ratio of housing to infrastructure is 49.64%: 50.36%
 - Majority of the roads proposed are of 3 mts width in view of severe congestion in the location;
 - The carpet area of 7 houses proposed for Ruppanapur is limited to 20.20 sq.mts as additional space is not available;
- 5.2. The representative of the State Government requested the Committee to approve the projects taking into consideration that these are for in-situ development of slums in the highly congested historical and religious city of Varanasi. The Committee requested the State Government to ensure that biometric identification of the beneficiaries in all the projects should be given priority. Director (SUDA), Government of Uttar Pradesh assured that biometric identification of the beneficiaries would be conducted in all the projects, including those approved earlier.
- 5.3. After discussions and taking the observations of appraising agency into account, the Committee approved the proposal. Abstracts of the approved components of the 3 projects are at Statement-I to III of Annexure-IV.

Release of 2nd installment

Tamil Nadu

Deputy Secretary (JNNURM) informed the Committee that the proposal is to release 2nd installment for 2 BSUP projects (1 each from Tiruvottiyur Municipality and Madhavaram Municipality under Chennai), Tamil Nadu. He said that in both the projects, 100% financial utilization has been achieved. The State/ULB share has been fully released and utilized. In the case of Madhavaram, at the time of approval of the projects, the CSMC had imposed certain conditions. Some of them such as granting pattas to the beneficiaries and biometric identification of beneficiaries are project specific. These are yet to be complied with by the State/ULB.

Andhra Pradesh

- Deputy Secretary (JNNURM) then presented the proposal for releasing 2nd installment for the BSUP project in Visakhapatnam, Andhra Pradesh. He said the project has achieved 84% utilization of the release. The State and ULB shares have been fully released and utilized.
- The Committee approved the proposal to release 2nd installment for 2 projects in Chennai agglomeration and 1 project in Visakhapatnam subject to the following conditions:-
 - For the project in Madhavaram Municipality, the conditions imposed by the Central Sanctioning & Monitoring Committee at the time of approval of the project should be complied with before the State comes up with proposal for releasing 3rd installment.
- The details of 2nd and 3rd installments approved are at Annexure-V. 6.4.
- The Chairperson, CSMC and Secretary (HUPA) once again emphasized that as the core of JNNURM is urban sector reform, the State Governments/ULBs must implement the reforms envisaged under the Mission Guidelines as per the timelines agreed to in MOAs and any deviation in the same should be addressed expeditiously. In particular, the State Governments/ULBs should address the issues of land availability for the urban poor. She also reiterated that the projects sanctioned have to be executed as per sanctioned DPR and any escalation in costs would need to be borne by the State Governments/ULBs.
- Concluding the meeting, the Chairperson of CSMC and Secretary (HUPA) said that efforts should be made by the stakeholders involved in the implementation of BSUP and IHSDP projects to ensure that not only the projects are implemented without time and cost overruns and with

utmost quality, appropriate policy reforms are also taken at the State and local levels to steer planned and inclusive urban development that places people at the centre stage of urban policy. For this, they should gear up the JNNURM implementation process by fixing milestones for progress, undertaking regular monitoring and developing State and city level frameworks. She urged the representatives of States/UTs/ULBs/parastatals/implementing agencies/appraisal agencies to adhere to the approved guidelines as well as undertake measures for the smooth implementation of projects and reforms through monthly reviews to ensure that the intended benefits reach the poor and deprived sections in slums and low-income settlements.

8. The meeting ended with a vote of thanks to the Chair.

 - 43. Shri B.P. Tihile, Chief Officer, Municipal Council, Murtizapur, Akola, Maharashtra
 - 44. Shri Nanakram J.Nebhanani, President, Municipal Council Murtizapur, Akola,
 - 45. Shri M. Jayachandran, Deputy Director, Ministry of HUPA

IMPORTANT POINTS REGARDING FORMULATION AND EXECUTION OF BSUP AND IHSDP PROJECTS

- In case there is time constraint, a regular socio-economic survey can be preceded by a rapid survey for identifying beneficiaries, their main and subsidiary occupations, their educational and skill profile and felt-needs so as to design appropriate social infrastructure for each project. Willingness of the beneficiaries should also be taken for any rehabilitation/relocation projects.
- Affordability of the urban poor should be kept foremost in view while working out Beneficiary Contribution. Any contribution amount beyond their financial capacity may lead to the imposition of undue burden on them. Therefore, special care needs to be taken while deciding upfront beneficiary contribution or EMI payment. Overall construction cost of the housing unit should be kept at a minimum. The housing component should generally be at least 50% of the total project cost with a view to giving primacy to provision of shelter to the urban poor except where housing units have already been constructed/are being constructed under VAMBAY or other EWS scheme of Central or State Governments. Further, considering the difficulties and special needs of the urban poor at some locations, clusters having more than 15 housing units can also be considered.
- Each project should be accompanied by a list of beneficiaries based on socio-economic survey and ULBs should go for bio-metric cards and ensure that houses are allotted to properly targeted beneficiaries and the possibility of sale/misuse of housing units is avoided. The list should be notified and placed in the website of the ULB/JNNURM.
- The layout plan must be socially cohesive and should facilitate social interaction. Efforts may be made for providing at least 30% open spaces with 15% green area in the layouts and adequate social and livelihoods infrastructure.
- Adequate space must be provided for community activities, informal sector markets, livelihood activities, pen for animals (if permitted and required), space to take care of convergent services such as health, education and recreation conforming to the specific needs of each of the slum pockets and their beneficiaries.
- The houses proposed should have two rooms, balcony, kitchen and separate bathroom and latrine, individual water connection and sewer connection. Aspects such as storage space for keeping things

in rooms/kitchen, location of kitchen, location of toilet and bathroom in the houses to facilitate privacy, independent access from both rooms to toilet and bathroom, leaving a small space for fitting exhaust fan in kitchen and toilet, balcony for drying clothes etc., are some of the nuances that can be thoughtfully incorporated in the design of the houses for the poor.

- The State authorities/ULBs may adopt some of the innovative designs and layouts of houses, multi-purpose community centres, informal sector markets and animal pens, etc. prepared and compiled by HUDCO and BMTPC. The Toolkit published in this regard may be referred to.
- The State authorities, in consultation with appraisal agencies, should ensure that necessary clearances such as environmental clearance, Coastal Regulation Zone (CRZ) regulation clearance, land use clearance, etc. are obtained. They should also ensure that necessary technical approvals are secured from the competent agencies as per State PWD Code.
- Since these projects are required to be generally completed in 12 to 15 months, it is generally expected that any escalation in the project cost is borne by the State Government/ULB concerned. For reducing escalation in the cost projects, the following option could be exercised:
 - i) Purchasing materials (cement, steel, sanitary pipes, electrical items) in bulk, wherever considered prudent and feasible with a view to reducing cost;
 - ii) Encouraging labour contribution from the beneficiaries under the supervision of qualified personnel;
 - iii) Bifurcating tendering (between housing component and infrastructure component) with a view to reducing the possibility of time and cost overruns; and
 - iv) Creating/using a revolving "Basic Services for Urban Poor (BSUP) Fund" earmarked out of the municipal budget and supplemented by other innovative measures like cross-subsidization for meeting cost escalation.
 - Wherever informal sector markets are taken up as a part of social infrastructure, their operation on a time-sharing basis by inhabitants for enabling wider coverage of beneficiaries can be considered by the ULB concerned.
 - Adequate provision should be made for solid and liquid waste disposal and digester technology could be adopted in place of dualpits/septic tanks, wherever feasible.

- Road-side plantations with tree guards and green belts are advisable.
- Responsibility of the technical specifications (adherence to State PWD Code) and their approval by the competent authority lies with the ULBs/State Level Nodal Agency. The appraisal agencies must ensure that technical specifications are duly approved by the technically competent authority as per State Government Public Works code.
- Prime Minister's New 15-Point Programme for the Welfare of the Minorities: An important objective of the new programme is to ensure that the benefits of various government schemes for the underprivileged reach the disadvantaged sections of the minority communities. In this regard, care should be taken to take up clusters of minority beneficiaries to the extent possible. Wherever feasible, efforts should be made to allocate upto 15% of targets and outlays under BSUP and IHSDP for the minorities. Similarly, priority should be given to accommodate physically challenged beneficiaries.
- Capacity Building Activities: In the year 2006-07, the Ministry of HUPA had released fund to the State Governments for capacity building activities including Research and Training towards implementation of BSUP and IHSDP projects. Unless the States submit utilisation certificates for the funds released earlier, further release of Central Assistance would be held up, as utilisation certificates have to be furnished within 12 months from the date of closure of the financial year to which financial sanction pertains.
- Status of Project Implementation: The States/ULBs should present Quarterly Progress Reports/Monthly Progress Reports as per prescribed format, without fail to enable the Ministry to report to Prime Minister's Office in time. Further, one page abstract on the status of implementation of projects and reforms must be presented before presenting the details of project proposals in the meetings of Central Sanctioning & Monitoring Committee/Central Sanctioning Committee.
- Setting up of PMU/PIA/PIU: The States/UTs should submit proposals to the o/o OSD (JNNURM) which will get the same appraised and bring up before the Central Sanctioning & Monitoring Committee/Central Sanctioning Committee. Transparent method should be adopted in the selection and appointment of professionals in PMUs and PIUs. Such appointments should not be permanent in nature but only in terms of short-term engagements. The appointments should not be seen as a place for parking the dead-wood. Each appointment should be based on prescribed terms of reference and the deliverables should be measured. Various activities, tasks and outcomes have to be

clearly spelt out in the TORs. States/ULBs should exercise utmost caution in making such appointments on a contract basis. The States/ULBs should try and ensure minimum expenditure by selecting/appointing professionals at an appropriate fee rather than immediately opting for the maximum amount indicated by the Centre. However, the calibre of such professionals should be of a reasonably high level. If need be, qualified persons from Central/State Government/ULBs could be taken in PMU/PIA/PIU on deputation. The personnel with PMUs/PIUs should work in tandem/collaboration with the State Level Nodal Agency / ULBs.

Fees for Preparation of DPRs: The States should submit proposals to the concerned Appraisal Agency which had appraised the projects. The Appraisal Agency has a crucial role in examining the claim with particular reference to the various stages of improvement and modifications that were brought out in the DPRs before they were finally approved by the Central Sanctioning and Monitoring Committee/Central Sanctioning Committee. The Appraisal Agency should submit proposals to the Ministry for releasing Central Assistance towards the cost of preparation of DPRs (both in the case of DPRs prepared by in-house personnel as well as by consultants). These will be considered by the Central After Committee. Monitoring Sanctioning and recommendation will be sent to the Ministry of Finance/Ministry of Home Affairs for releasing Central Assistance out of the ACA allocation for the particular State/UT in the case of projects prepared by consultants. The Central Assistance for DPRs prepared through in-house personnel of the States would be released from out of the 1% JNNURM fund in the Budget of Ministry of HUPA as decided in the Central Sanctioning & Monitoring Committee /Central Sanctioning Committee meetings earlier.

• Community Development Network (CDN): The States / UTs should prioritise and get necessary approval from SLSC/SLCC to the proposals concerning Community Development Network (CDN) so as to seek Community Participation Fund. Such proposals received in the Ministry of HUPA will be appraised by a team working under the GOI-UNDP Project on National Strategy for Urban Poor coordinated by the National Project Coordinator/Deputy Secretary (JNNURM). The reports will then be placed before the Central Sanctioning & Monitoring Committee.

Community Development Networks involving Neighbourhood Groups, Neighbourhood Committees and Community

Development Societies should be promoted so that the dynamics of the CDN lead to fraternity in the neighbourhoods and the issues of alienation of all sorts are eliminated. CDN should work towards better inter- and intra- relationships in colonies to get over the dividing forces. This will strengthen a feeling of solidarity among the residents.

- Third Party Inspection and Monitoring (TPIM) mechanism: TPIM should be instituted to bring transparency and quality in the implementation of BSUP and IHSDP projects. The Ministry is giving necessary assistance to the States for TPIM. Toolkit has been prepared and communicated to the State Governments.
- Quality of Projects: Housing for the poor does not mean poor quality housing. Utmost emphasis must be given to the quality of houses for the poor. A vector-free atmosphere and healthy living environment should be ensured in the housing projects under BSUP/IHSDP.
- Socio-economic Survey: No efforts should be spared for conducting socio-economic surveys of potential beneficiaries. This would facilitate assessing the needs of the beneficiaries, especially for schools, health centres and other social/community facilities. Based on the socio-economic survey, biometric identity cards should be issued to the beneficiaries to ensure that they do not sell the dwelling units and squat elsewhere. Such surveys should cover housing, health, educational and livelihood profiles of the urban poor. The surveys would assist in designing good BSUP/IHSDP projects by taking into account important aspects such as dependency load in the existing schools, capacity of hospitals for inand out-patients, need for multi-purpose community centres including livelihood centre and informal sector markets. HUDCO and BMTPC have developed good designs of houses, colonies and various types of social infrastructure facilities which could be appropriately used while formulating project proposals. A Toolkit has also been published.
- City Poverty Reduction Strategy Report. The city of Rajkot (Gujarat) has brought out a City Poverty Reduction Strategy Report. Other cities/towns may bring out similar reports.
- Convergence of Health, Education and Social Security: It is necessary to integrate provisions of Health, Education and Social Security with Housing for the Poor to enable them to lead a better quality of life. The Urban Local Bodies and State Governments have a critical role to play to ensure proper convergence of facilities under the already available schemes for education, health and social security implemented through different departments/fields. The

projects should list out the deficiencies in terms of access to school, primary health centre, provision of social welfare measures so that timely remedial measures in accordance with the socio-economic survey can be taken up. Provision of adequate infrastructure for school and health care should be taken at the formulation of the project itself. A mere statement that adequate number of schools/health centres is available in the vicinity of the proposed housing colony would not be sufficient. The State/ULB/implementing agency should certify that such facilities available in the vicinity are also accessible to the slum dwellers. Similarly proper convergence of schemes in the realm of social security such as old age pension, health insurance, maternity benefit scheme, etc. should be accessed to benefit the urban poor selected under JNNURM.

- Proposals for additional schools or additional rooms in existing schools must be part of the DPRs. The capacity of the existing schools to absorb the children from colonies being developed under BSUP and IHSDP needs to be studied. The estimate of school-going children (including those from the new colonies) and demand for classrooms in terms of prevailing norms, capacity in existing schools and the additional capacity required should be worked out. Similar exercise should be done for providing health care facilities. Further, action needs to be taken to provide other community infrastructure and facilities. Detailed estimates of requirements as per norms, availability and gaps to be addressed have to be prepared at the initial stage of project preparation itself.
- Projects for in-situ development: States should come up with projects for in-situ development with good lay-outs and type designs. The emphasis should be to provide a better and supportive atmosphere for living and working. The in-situ development should not end up with creation of another cluster of houses without access to water, sanitation and social infrastructure.
- Sense of belongingness: To create a sense of belongingness, the slums may be named in consultation with the intended beneficiaries. Provision of a low cost enclosure around open spaces in the slum pocket being covered under BSUP/IHSDP could be considered by States/ULBs, if the cost is not prohibitive.
- O&M System for Maintenance:- Maintenance of the assets and upkeep of cleanliness and hygiene in the housing complexes / colonies developed under BSUP and IHSDP should be given importance. State Governments/ULBs should evolve a viable mechanism for maintenance of the assets created under BSUP and

IHSDP projects, especially the houses and common facilities constructed.

- Three key reforms core to the urban poor: Special attention should be paid for the implementation of the three key reforms stipulated under JNNURM that are critical to the urban poor: (i) internal earmarking within local body budgets for basic services to the urban poor; (ii) provision of basic services including the implementation of 7-Point Charter in accordance with agreed timelines; (iii) earmarking at least 20-25% of developed land in all housing projects (both public and private agencies) for EWS/LIG category with a system of cross subsidization.
- IEC activity: In a people-centric programme like BSUP and IHSDP under JNNURM, there is a need to generate greater awareness among the targeted sections so that they received what is intended for them by the Government. Any awareness campaign should have a national appeal and recall value with consistent and coherent slogans and themes. The States/ULBs could bring out advertisements in vernacular languages with local adaptation of the templates prepared by the Ministry of HUPA. States/ULBs should ensure that the local adaptation does not deviate from the letter and spirit of the national templates and the messages conveyed are only about the programme and related policy advocacy. They should also ensure that all such media campaign is in accordance with the relevant rules and regulations applicable. Cost of such campaign, in accordance with Government approved rates, would be reimbursed to the States/ULBs under IEC component of JNNURM subject to limits fixed by CSMC. Reimbursement will be made if prior approval of the Mission Directorate/CSMC/CSC in the Ministry of HUPA was obtained before launching such campaign. Proposals for reimbursement of such expenditure will be submitted through HUDCO which will put up the same to the Central Sanctioning and Monitoring Committee for its consideration and approval of reimbursement through Department of Expenditure, Ministry of Finance or Ministry of Home Affairs, as the case may be.
