No.N-11028/13/2007/IHSDP/JNNURM -Vol.VII

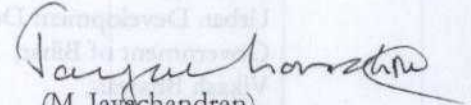

Government of India
Ministry of Housing and Urban Poverty Alleviation
JNNURM Directorate

Room No. 201 G Wing
New Delhi, dated 27 November, 2007

OFFICE MEMORANDUM

The undersigned is directed to enclose herewith a copy of the minutes of the 22rd meeting of the Central Sanctioning Committee of Ministry of Housing and Urban Poverty Alleviation held on 13.11.2007 under the Chairmanship of Secretary (HUPA) to consider and sanction projects under Integrated Housing and Slum Development Programme.

2. The appraisal agency (i.e. HUDCO) is requested to convey the decisions of the Central Sanctioning Committee to the State implementing agency/nodal agency for IHSDP to take appropriate follow up actions as per the minutes of the meeting.
3. A copy of the minutes is forwarded to the Secretaries in-charge of BSUP and IHSDP in the States/UTs with a request to take further follow up action.

(M. Jayachandran)

Deputy Director (BSUP)

MINUTES OF THE 23rd MEETING OF THE CENTRAL SANCTIONING COMMITTEE (CSC) OF INTEGRATED HOUSING AND SLUM DEVELOPMENT PROGRAMME

Nirman Bhawan, New Delhi, 13 November, 2007

The twenty-third meeting of the Central Sanctioning Committee (CSC) of Integrated Housing and Slum Development Programme (IHSDP) was held under the Chairmanship of Secretary, Ministry of Housing and Urban Poverty Alleviation in New Delhi on 13th November, 2007. List of participants is at **Annexure – I.**

2. Welcoming the participants, Joint Secretary and Mission Director drew attention of the States/UTs towards the urgent need for completing the projects approved earlier in a time-bound manner. States should come up with proposals for release of second instalment of Central assistance. Also, special attention should be paid for implementation of three reforms that are core to the urban poor, i.e., (i) internal earmarking within local body budgets for basic services to the urban poor; (ii) provision of basic services including the 7-point charter; (iii) earmarking at least 20-25% of developed land in all housing projects (both public and private agencies) for EWS/LIG category with a system of cross subsidization.

4. Chairman, CSC and Secretary (HUPA) said that some important points and measures mentioned in the minutes issued earlier, as consolidated below, would facilitate smooth implementation of the projects:-

- In a letter to all the Chief Ministers recently, the Hon'ble Prime Minister has emphasised the need to prepare a time-bound action plan for each city for providing all entitlements and amenities envisaged in the 7-Point charter within the Mission period. A socio-economic survey would help in smooth implementation of 7-Point Charter.
- To ensure proper convergence of health, education and social security components, care should be taken to incorporate social infrastructure components in the projects. A need based multipurpose community centre, work-shed for the urban poor to continue with their livelihood activities, pen for animal and informal sector markets should be built into the infrastructure component of the project
- The State authorities/implementing agencies should ensure that adequate land free from disputes are available before the projects are brought before the State Level Steering Committee/State Level Coordination Committee. Requisite approval from the

SLSC/SLCC should be obtained before the projects are brought up to the Central Sanctioning and Monitoring Committee/Central Sanctioning Committee. It should be ensured by the State level authorities that no escalation, departmental charges or contingencies are incorporated in the project cost. Since these projects are required to be completed in 12 to 15 months, no escalation of the project cost is permissible.

- Emphasis should be given to ensure that good quality houses are constructed within the reasonable period of time, say 12 to 18 months. An incentive would be given for projects completed and handed over to the beneficiaries within a period of 12 months. Separating the tendering process for housing and infrastructure components would facilitate early start of construction and completion of housing projects.
- In all the housing projects the aim should be to provide a decent place of living. The design and layout of the houses should incorporate following features
 - i) Carpet area of the house should not be less than 25 square metre.
 - ii) House should have two rooms, kitchen, balcony and separate bath and toilet.
 - iii) There must be sufficient open space and green area within the colony.
 - iv) Design of the houses should ensure proper ventilation and natural lighting. Entrance doors & windows should have a wire mesh.
 - v) An innovative approach should also be adopted while designing the inner lay out of the houses. For example, if a 3ft x 2ft section is extended in the wall in the room and a small section in the kitchen, the poor people would be able to improvise and use them as a shelf for keeping things.
 - vi) While constructing multi-storey structure efforts should be made to make it disabled-friendly. Construction of ramps instead of conventional staircases is an alternative.
 - vii) Layout of the houses should facilitate social interaction among the residents and row after row houses are not desirable
- All the urban poor people do not have enough capacity to pay huge amount of loan. Almost seventy per cent of them earn less than Rs.20 per day. These aspects should be kept in mind while deciding the EMI for the loan towards beneficiary contribution. Care should be taken to ensure that the cost of houses are

affordable for the urban poor people, and wherever possible structures/common facilities/common spaces such as stair-case for a multi-storey building should be excluded from the unit cost of dwelling unit. Such cost is to be included under infrastructure component and not loaded on the beneficiary as cost of dwelling unit.

- Though no specifics have been provided in the BSUP and IHSDP guidelines regarding the percentage of cost of housing and infrastructure components, in the projects implemented under BSUP and IHSDP a reasonable limit would be about 50 to 60 per cent for housing and remaining for infrastructure (excluding colonies where EWS units were built/are being built with Central Government/State Government support). This would ensure that more numbers of houses are constructed for the poor under JNNURM.
- In all the projects undertaken under BSUP and IHSDP effort should be taken for inclusion of the following within the total approved project cost
 - Interim measures for proper sanitation such as use of Dual Pits or Digesters etc.;
 - The beneficiary component to be recovered in about 4 instalments in line with the progress of the construction of different phases
- The States/UTs should work towards achieving the Mid-Term Targets by 31st August, 2008. Already approved projects need to be completed on a war footing and the States/UTs should come forward with proposals for release of 2nd instalment of Central assistance. States/UTs are to furnish quarterly progress report on the stage of implementation of projects (physical and financial). In addition to this, all the States/UTs should furnish a single page abstract of the progress by 5th of every month to the Ministry of HUPA.

Project Preparation:

- *Undertake biometric identification of beneficiaries and place the lists on the State / Municipal / JNNURM websites with a view to ensuring utmost transparency in the implementation of housing and slum development programmes under JNNURM;*
- *In all the projects the aim should be to cover the poorest among the poor under housing who are not in a position to build houses on their own rather than spending money only for infrastructure facilities for the already built houses*

(excepting in the cases of VAMBAY and EWS Scheme projects). When large numbers of poor people are living in slums with no land tenure, the States may give preference for integrated development of slums. Where only infrastructure facilities are to be provided, the State Government may consider providing their own fund for such activities. The ultimate objective should be to cover first the needy people who require shelter so that the poor get the maximum benefit out of the scheme. This also assumes importance considering the estimated shortage of about 24.7 million houses in the country at the beginning of the 11th Plan with 98% of the same being under EWS/LIG categories.

- State/ULB/implementing agency should ensure that all procedures are followed as per the State PWD Code regarding technical scrutiny, administrative sanction and financial propriety before projects are put up to the State Level Steering Committee/State Level Coordination Committee.
- Detailed Project Reports need to be prepared with more technical inputs in areas such as structural design, connectivity of local infrastructure systems with city-wide trunk lines, costing of projects based on approved schedule of rates and appropriate local verification to avoid over-invoicing. DPRs should include status and capacity of the existing services and the demand-gap situation. The DPRs should specially include the following aspects:
 - Status of availability and quality of water supply to slum dwellers/ to their new improved houses, connectivity to trunk water lines, level of water table (in case of tube well), provision of overhead tanks, etc.;
 - Technical details of the proposed sewerage and storm drainage lines such as invert level, outfall parameters and their proper connectivity to city-wide systems;
 - Details of the existing schools should contain data about their distance from slum/low-income neighborhood and intake capacity, whether they can accommodate children from the family of those slum dwellers for whom houses are existing/or are being constructed under BSUP/IHSDP; whether the schools are run by Government or private agency; etc.
 - Status of health facilities such as availability of health centres/sub-centres/maternity centers and their OPD and bed strength capacity, details of hospital facilities (whether they can adequately serve the slum population or not), distance of facilities from the slum locality etc.; and
 - Proximity of all infrastructure facilities proposed in the slum area/low-income neighborhood to the city-level infrastructure and their proper integration with trunk supply networks.
- The inputs as mentioned above, along with details of statutory requirements, should be inbuilt into DPRs for both slum level and city level projects under JNNURM at the stage of preparation of Detailed Project Reports. The various reports will need to be technically verified, certified and signed by the engineers of appropriate levels as per the State/UT Public Works Code.

Appraisal Agencies

- *Appraisal agencies should pay more attention to the structural and technical aspects and if necessary site visits should be conducted before writing the appraisal report. Assistance from technically competent academic institutions/agencies must be secured where required. Good quality DPRs are necessary for ensuring construction of quality houses and civic amenities without wastage of resources. The appraisal agencies need not be on a fault-finding mission; they need to provide expert inputs that would facilitate proper convergence between components of projects and governmental schemes.*
- *Appraisal agencies should look into the above mentioned aspects before bringing any project proposals for consideration of the Committee. They should ensure that the ratio of cost of housing and infrastructure components in a project proposal is within a reasonable limit in general, say about 40 to 60 per cent for housing and remaining for infrastructure. This would ensure that more numbers of houses are constructed for the poor under JNNURM.*

Action to be taken by State Government for implementation of project

- *Ensure that the funds for providing housing and related infrastructure facilities to the urban poor are not thinly spread. On the contrary, sanctioned projects should be implemented in 12-18 months to ensure tangible and quantifiable outcome in the field so that the poor are benefited.*
- *As the primary objective of JNNURM is to assist the urban poor, the subsidy from the Central Government should be passed on to the urban poor. Further, the concerned State/UT Government should provide a subsidy in keeping with the intent and spirit of BSUP/IHSDP so that the loan burden of a poor EWS or LIG household does not exceed between 12 to 25 per cent of the total cost of the EWS or LIG dwelling unit.*
- *Ensure that the assets created for the urban poor are of good quality. The houses built under BSUP/IHSDP should preferably have two rooms with attached bath, latrine and kitchen and the covered area should range between 25 to 30 square metres. The beneficiaries should have individual water connection and individual toilet;*
- *Take up city-wide infrastructure development by using Urban Infrastructure and Governance Sub-Mission / Urban Infrastructure Development Scheme for Small and Medium Towns/State Plan/Municipal funds to ensure that slum infrastructure networks: water supply, sewerage, storm drainage, roads etc. are connected to city-wide infrastructure systems.*
- *Ensure convergence of facilities under education, health and social security with physical amenities and other services in coordination with respective programmes such as Sarva Shiksha Abhiyan.*
- *Prepare State / Municipal / Slums urban poverty profiles with due attention to the 7-Point Charter, namely land tenure, shelter, water, sanitation, education, health and social security and other amenities;*

- Develop State / City / Slums development plans with a vision of slum-free city and devise phasing plan with time-bound action to provide all basic amenities to the urban poor within the Mission period as contemplated under reform agenda for JNNURM;
- Establish State / Municipal Poverty Alleviation & Livelihood Development Cells to plan, develop, monitor and assist in the implementation of JNNURM with the full involvement of all stakeholders;
- Computerize database and MIS on slums and the urban poor and prepare State / City Strategy for Urban Poverty Alleviation for which part funding is provided under JNNURM. Put in place a computerized tracking system to track the physical and financial progress of projects sanctioned under JNNURM, slum-wise and beneficiary-wise and stage of construction-wise;
- Establish quality control systems – internal and external – to ensure that the constructions are undertaken with utmost quality to represent value for money. They should also constitute beneficiary committees which would supervise construction at various levels – foundation, basement, lintel, roof, completion, occupation etc. and undertake social audit of the projects after completion;
- Ensure that there is no delay in implementation of the projects. Since housing projects for the urban poor involve beneficiary contribution and sometimes a small loan component, delay in implementation will severely hamper their ability to meet EMI requirements.
- In so far as security of tenure is concerned, a mechanism may be evolved to prevent resale of such properties before a reasonable period of say 10-15 years. The pattas granted to the beneficiaries could be mortgaged to banks in the case of beneficiaries taking loans. In case no loan component is involved, the ownership of such houses could vest in a society of the beneficiaries themselves. With bio-metric identification of beneficiaries and proper control by the Registrar of Cooperatives, such a mechanism could be a desirable option. All the State Governments/UT Administration should ensure that biometric identification of beneficiaries, in the case of approved projects, is completed as early as possible. Where occupancy rights are not granted, the same should be given to the beneficiaries within 6 months.

Monitoring Reports

- The Mid-Term Targets fixed during the review meeting held by the Hon'ble Prime Minister recently should be achieved. All the State Governments have been informed about this through a DO letter from Secretary (HUPA) to the Chief Secretary and the concerned Secretary in the State Government/ UT Administration. **States/UTs are required to send quarterly progress reports on physical and financial progress and reforms for which formats have been sent to the State Secretaries and Nodal agencies.**
- The States/UTs which have already been sanctioned projects under BSUP/IHSDP should expeditiously implement them with the 1st instalment from the Central Government and appropriate State share and submit UCs for 70% of the Central share and State share. **[UCs should specifically mention the Central share received and utilized.]** This would facilitate the Ministry for releasing 2nd instalment of the share of the Central Government.

5. For the meeting 2 projects from the State of Jammu & Kashmir (for Ramnagar and Reasi Towns) were put up in the agenda. Brief details of the agenda are at **Annexure-II**. These projects were appraised by HUDCO. The Chairman of CSC and Secretary (HUPA) requested representative of the State Government to give an account on the following:

- (i) Brief details of physical and financial progress of already approved projects including the actual availability of Central share, State share, ULB share, beneficiary contribution, loan component; tentative schedule for seeking 2nd instalment of Central share, number of houses actually constructed, stage of progress of housing and infrastructure etc.
- (ii) Basic details of the present proposals such as total project cost and its break up into housing and infrastructure components (percentages); break-up of cost of housing and infrastructure under Central Share, State share, ULB share, Beneficiary contribution, loan and parastatals.

6. Joint Secretary and Mission Director informed the representative of the State Government that after the State Government signed MoA under IHSDP recently, Ministry of HUPA has recommended release of 1st instalment of Central Share for the already approved IHSDP Projects. However, the release will be limited to the availability of fund which is much less than the 1st instalment of Central share for the 10 projects approved.

7. The representative of the State Government of Jammu Kashmir made a presentation on the two projects. The Committee observed that there is much scope for improving the project (such as maintaining at least 50:50 ratio between housing and infrastructure components; improving the lay out plan; need based provision for community infrastructure). To enable the State Government to improve the project and also considering the fact that any further release to the State in the current year can be considered by Ministry of Finance only in the last quarter of the financial year, the Committee deferred the two projects.

8. The meeting ended with a vote of thanks to the Chair.

Annexure-I
(22/11/07)

ANNEXURE-I

LIST OF PARTICIPANTS IN HE 23rd MEETING OF CENTRAL SANCTIONING COMMITTEE (CSC) HELD UNDER THE CHAIRMANSHIP OF SECRETARY (HUPA) ON 13.11.2007.

1. Dr. Harjeet S. Anand, Secretary, Ministry of Housing and Urban Poverty Alleviation in chair
2. Dr. P.K. Mohanty, Joint Secretary and Mission Director, Ministry of HUPA.
3. Shri D.S. Negi, OSD (JNNURM), Ministry of HUPA
4. Shri V.K. Gupta, Deputy Financial Adviser, Ministry of Urban Development
5. Shri Yogesh Sharma, Director, Ministry of Environment and Forests, Paryavaran Bhavan, CGO Complex, Lodhi Road, New Delhi.
6. Shri Vivek Nangia, Deputy Secretary (JNNURM), Ministry of HUPA
7. Shri Deena Nath, Deputy Director, Department of Expenditure, Ministry of Finance
