

Ongoing Projects under ADB Assistance

The **Asian Development Bank (ADB)** is a regional development bank established in 1966 to promote economic and social development in Asian and Pacific countries through loans and technical assistance. It is a multilateral development financial institution owned by 67 members, 48 from the region and 19 from other parts of the globe. ADB's vision is a region free of poverty. Its mission is to help its developing member countries reduce poverty and improve the quality of life of their citizens.

The bank was conceived with the vision of creating a financial institution that would be "Asian in character" to foster growth and cooperation in a region that back then was one of the world's poorest. The list of projects ongoing is as under:
