

Ongoing Projects under JICA ODA loan Assistance

The purpose of Japan International Co-operation Agency(JICA) shall be to contribute to the sound development of Japan and the international economy and community through undertaking lending and other financial operations: for the promotion of Japanese exports, imports or Japanese economic activities overseas; for the stability of international financial order; and for economic and social development or economic stability in developing areas; in accordance with the principle that it shall not compete with commercial financial institutions.

JICA is the largest Bilateral donor for India and it is extending its cooperation and financial assistance in the field of water supply, sewerage and sanitation and other social and infrastructure developments in the country. The statement showing list of ongoing projects is as under.
